Flexeserve Hub[®] Customisation guide

Shelf Front

The shelf front within the unit can reflect the finishes and materials of your existing store environment - from wood and metal to vinyl and other textures.

Base Panel

To complement your brand and store environment, the base of the Flexeserve Hub[®] unit can be manufactured in RAL colour, or can incorporate magnetic graphics, vinyl signage or any other materials.

Header

You can add a range of visual effects from illuminated signs, header boards, magnetic signage or vinyl graphics.

End panel

You can further enhance your Flexeserve Hub[®] unit by adding colour or branding to the end panels. Vinyl graphics can be applied directly to the glass.

Standard units are supplied in brushed stainless steel finish with black masked glass end panels.
